

zip archive of angle-over-intensity data files (up to 4296 MB) view file containing labels (Optional)

Upload your XRD data files here (.zip)*

Upload your labels here (.csv)

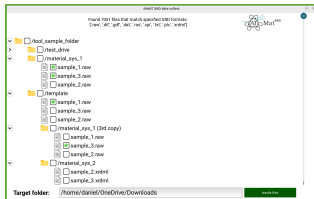

Short description of the submitted data and experimental parameters (Optional)

Is this dataset a cohesive group of experiments or a compilation of various records? Allow the samples subjected to any particular temperature or pressure conditions or undergoing a reaction or process? Are there any experimental parameters not included in the data files that we should be aware of?

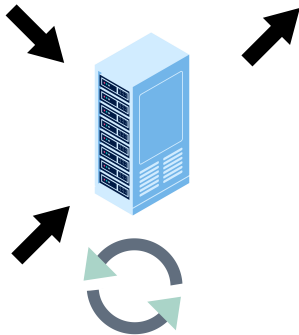

☐ By clicking "submit" I agree to the data being included in a publicly available dataset
